Installation:

Vice City: Ensure that you have a running, legal, copy of Vice City. Create a backup of these files to ensure you have a copy of the game that has been unmodified for later.

Autoinstaller (Recommended): Double-click the Extended Features 1.0 (or later) .exe, this will automatically install and overwrite and files as necessary. Choose your correct Vice City folder.

Manual Install (Professional): Should the installer not work correctly or you prefer to choose which files are added to your game, unpack the archive with a tool such as 7zip or PeaZip, and then copy all files into the Vice City install directory.

Saves/Settings Files: Save Data and Game Settings are saved within the game directory at /Vice City/userfiles/. You can now carry the game on a flash drive or other portable medium to continue where you left off.

Mods: Additional mods are not supported, as they may cause instability, conflicts, or corruptions to game saves and settings. Use mods at your own risk and be sure to backup all files of your original game and this mod before installation begins.

TEXTURES + MODELS +

Textures:

Thousands of textures upscaled or added, including neon lighting added to buildings, vegetation recoloring, skins and pedestrians upscaled, fixes for bugs or misused textures. All true to the original feel and intention. Keep your eyes on the road, pal!

Models:

Models, collision, and water bugfixes and improvements. Additional props, decorations, shortcuts, lighting, vegetation, some with higher quality models than the original.

Definitive? No, this is Extended.

Vehicles:

Models, collision, and texture improvements. Additional car colors available in Pay 'N' Spray locations or visible in traffic. Hidden, special, or collectible vehicles can be found around the map. Over 250 ADDITIONAL vehicles have been added to the game.

Signage/Billboards:

Models, collision, and texture improvements. All signs and billboards are created with in-universe brands, or have connections to VCE exclusive locations such as Oleta, or Everglades City. Go Gators!

AUDIO

Audio:

We didn't just fix a couple bugs, restore missing audio clips, add a higher quality sound driver, and add multiple collectible headphone tracks to the map, we added...

Ambient Sounds:

The city has never felt more alive. Listen for distant boats and trains, construction work, birds and insects, airplanes and helicopters passing overhead, cars honking, cats fighting, dogs barking, bar fights, pool games, dolphins, seagulls, and many other sounds added to places in the city.

Emergency Radio/Arena/Clubs/Mall:

When entering an Emergency Services vehicle, real police scanner traffic has been added to the ambient city track. Now it will feel less quiet and lonely on patrols, perfect for the new police side missions. New music for all indoor spaces.

Radio Zydeco:

Tune into Radio Zydeco, Vice City's #1 music fusion station. Enjoy hits from artists like Arturo Fuerte and Twig. Explore with deep dives into mysteries, oddities, and other mysterious events with our 2 hosts.

WELCOME BACK . . .

Interiors:

Take a moment to relax and enjoy the finer things in life. Lobster, wine, Tapir snout at a fancy diner, really gets your mouth watering. No? How about a Pusch Light, dancing close to other men at a nightclub, while you're dressed in leather chaps? Sounds sweaty.

Scenes and details:

Ever go to rob a store, only to find that someone is already holding it up? The police are there, bullets flying by as pedestrians run for cover. That's just one of the many crazy things that happens here in Vice.

Gangs:

Rednecks, Cholos, heck, even the Oleta Sherriffs are cutting themselves a piece of some nice action. Times have changed, but this time it won't be as easy as destroying a few window displays.

Activities:

Do you have the balls to go bowling at Bills? Or the stripes to horse bet? Maybe Mercedes is feeling lonely and up for a date at one of the new nightclubs? Plus, there's always time to stop over for a game of blackjack at the hotel. Did we mention there's a ferris wheel?

. . . TO PARADISE

Empires Extended:

A true business mogul knows that in order to truly run this city, you need more than just an ice cream truck or zebra stripes on your taxi. Here's how the pros do it.

"Come back in and park yourself on the hide, son. Now, I know you don't fancy a drink so I'll just cut to the chase. If you want to adapt to this city, you're going to have to get your hands dirty. There's plenty of rundown buildings around to start your criminal empire, or you could always export some drugs at the boatyard."

-Avery Carrington

ACTIVITIES + SIGHTS

Missions:

New missions by original characters in the style of Strangers and Freaks. Find an NPC hidden around the map and they may have a few tasks for you to complete. Everyone needs a few extra bucks, right?

Empire Properties:

Run your own prostitution ring, hire thugs for robberies, counterfeiting, or many of the other propety options. Upgrade your buildings and grow your empire. Hey, we don't judge.

Animals:

Dogs and cats, Flamingos, chickens, ducks, and other animals can be seen walking, swimming, or flying around the city. You'll hear over 20 different kinds of birds, sea life, and others as you make your way across the various areas of Vice City and the additional islands.

People:

Buskers, food carts, electrical workers, artists, cigarette saleswomen, street sweepers, sherrifs, new gangs, and many additional peds will be walking or working right alongside you in this living, breathing world.

TO BE SEEN

Transportation:

Hop into a taxi and ride anywhere in the city for a short fee. Enjoy a ride on the bus, or a beautiful view of the ocean on Vice City's Tram services Downtown.

Clothing:

Shop for new threads at Raphaels, new suits and shirts available here! Other outfits can also be found hidden around the map and in special locations. All of them now combined into one wardrobe for you to choose exactly which style fits your ever-changing mood.

Hustles:

Challenge (or be challenged) by street racers, fight clubs, boat races, drug smuggling, blackjack, horse betting, bowling, go-karting, golfing, lowrider hopping, car export, or many other activities found in and around the city.

Police Missions:

Crime does pay. Find yourself a uniform and grab a squad car out front before you start a patrol on the beat, then head inside to your desk. There's always a criminal or homeless man to confront around here.

No Insurance Required!

With the way residents drive you'll be going through cars like containers of hair gel, often. See a vehicle that catches your fancy, or maybe just matches your shirt a little better? It's yours. Just make sure you step on the gas once you're in, because Tommy isn't the only one packing some firepower on these streets.

Aircraft:

Are you an ace pilot or just a rookie? Try your hand at various aircraft, ranging from helicopters to fighter planes, biplanes, or even a small engine Dodo. Enjoy the sights while you're up there, landing from rooftop to rooftop to take pictures. If you have any troubles, the parachute is sure to save you from harm. Remember, it's not the fall that kills you, it's the sudden stop.

Boats:

Can you hear those dolphins playing off the coast of the bay? Long time residents of the area (and snowbirds) can often be seen enjoying their free time out on the water. Sailboats for sunny days, jet skis are nearby for when the waves are just right, and enough speedboats to rival the fastest boat on the jetty. The cops won't be able to keep up.

AUTOS

Cars :

Locals of the area are known for their style and wealth, and what better way to flaunt it than a new flashy car? Getting bored of the speed and fast-paced lifestyle of exotic cars? There will always be gorgeous showroom ready classics roaming the streets as well. Keep your eyes peeled for secret cars, improved variations, and even exclusive vehicles that only can be accessed in special ways. Hope you brought your lockpicks.

Trucks & Service Vehicles:

Between the Old Factory district of Oleta River, and the trailer park of Everglades City, Vice City is loaded with any type of vehicle you're looking for. Deliver a shipment of fuel with the semi, clean up grime with the street sweeper, or take advantage of the massive construction vehicles scattered around various areas. If you have a heavy job to do, these will get it done right.

Special Vehicles:

Hidden on side streets and alleys, you may find some of these unique and special vehicles. Look out for drifting hotrods with the biggest of engines, cars with enough speed to clear a highway, and nimble personal aircraft with machine guns. Do you have the skill to earn these for yourself? Don't just look on the roads for these vehicles, we have friends in high places.
